ABOUT ME

I am Biswaranjan Patra, an MCA student with a keen interest in frontend development and modern web technologies. I have experience building responsive web applications using HTML, CSS, JavaScript, and React.js. My background in computer applications and visual arts helps me combine technical skills with creativity to create user-friendly interfaces. I am eager to gain real-world experience, strengthen my frontend development skills, and contribute to innovative web projects.

EDUCATION

- 2024-2026** **Master of Computer Application**
Biju Patnaik University of Technology | NIIS Institute of Business Administration, Bhubaneswar
- 2019-2023** **Bachelor of Visual Arts (BVA)**
Utkal University Of Culture, Bhubaneswar | Dhauli College of Art and Craft, Bhubaneswar

EXPERIENCE

- 2026 Feb - Now** **Software Development Intern**
Bandhure Solutions LLP(aivi.in)-Onsite
Building responsive UI components using HTML, CSS, and JavaScript for client-facing web applications. Contributing to full-stack features including REST API integration and frontend-backend data flow. Collaborating with senior developers on production codebase, following version control practices via Git
- 2025 July - Nov** **Full Stack Web Development Intern**
Web Bocket Software Pvt.Ltd- Onsite
Developed and maintained frontend modules for live web projects using HTML, CSS, and JavaScript. Assisted in backend integration tasks, gaining exposure to full-stack application architecture. Worked in a team environment, participating in code reviews and sprint-based delivery cycles

SKILLS

- Frontend: HTML, CSS, JavaScript, React(Basics)
- Backend: Python, FastAPI (Learning)
- Creative and analytical thinker
- Tools: Git, VS Code
- Databases: MongoDB(Basics)
- Quick learner and adaptable

PROJECT

- LogSentinel Dashboard (Full Stack)** :- Using FastAPI, MongoDB, and JavaScript, I created a full-stack log processing and anomaly detection dashboard. It monitors real-time system logs with an appealing user interface.
- Smart Farm — Farm Management System :- (KRISHI SATHI)** A digital tool to assist farmers with inventory management, crop records, and expense tracking. Simple data entry and digital record management enhance farm productivity and decision-making.
- Jagannath Statue Catalogue Platform:-** Built a full-stack Catalogue & Order Management System for customized divine statues using React.js, Tailwind CSS, and Firebase Firestore, featuring dynamic pricing, secure admin controls, and CSV order export.
